BIOS update instructions

Note: Please ensure that the AC adapter remains connected throughout the entire BIOS update process.

Please follow the steps below to update the BIOS:

1. Run NH55DPQ08T.exe. When prompted, click "OK", and the system will restart to perform the first stage of the BIOS update.

2. After the system restarts, run NH55DEQ.exe as an administrator once more. When prompted, click "OK", and the system will restart again to complete the BIOS update process.
